

What's in the Feel Great pack

A 30-count box of Balance & two 30-count boxes of Unimate

If we stop constantly eating, we give our bodies the time they need to go into a natural fat-burning state instead of relying on a steady supply of glucose for energy.

Cost Neutral Health Program:

This isn't about spending more - it's about using what we already spend in a better way.

By setting aside what we would normally spend on breakfast, snacks, or sugary/energy drinks, we can invest in a system that support better health for about \$5.30 per day + tax.

Here's how it adds up:

1. *Skipping breakfast (\$5)*
2. *Skipping snacks & drinks (\$5)*
3. *As we improve insulin resistance, many people work with their doctor to lower or stop certain medications - and often no longer need extra vitamins or supplements.*

How Feel Great works

First Unimate

Wake up, start your day with Unimate

Second Unimate

Take a second Unimate to keep hunger at bay or when you need an afternoon pick-me-up.

Balance

Take Balance with your largest meal of the day

Fasting begins

Start your fast after dinner and wait 16 hours before your next meal.

Unimate and Balance work together to help you extend the time between dinner and your first meal of the following day. Time-based eating, often referred to as intermittent fasting, has been associated with numerous health benefits like:

- Healthy blood pressure
- Improved heart health
- Improved body composition
